

Hello,

OXY
1099 18th Street Suite 700
Denver, CO 80202-1918

Oxy is proposing an oil and gas location in your area and is in the process of submitting permit applications to local county and state agencies. Our Stakeholder Relations team is a dedicated resource for stakeholders in the communities in which we operate. We are committed to being good neighbors by providing frequent and transparent information as well as seeking the community's input.

This will be the first of several communications to come from us throughout the process. Additionally, updates on this project will be available on our website at OxyColoradoStakeholder.com

Please feel free to reach out to our Stakeholder Relations team and we look forward to connecting with you!
