

May 2024

Dear Neighbor,

We are writing to notify you that Kerr McGee Oil & Gas Onshore, LP, a subsidiary of Oxy USA Inc., will soon be conducting work at an existing oil and natural gas location in your area. Please see the map on the reverse side for reference.

The work involves using temporary water storage tanks and other equipment to pump water into the existing wells. This daylight-only operation will begin in the next few weeks and will take approximately one week to complete. Our teams will use various types of construction vehicles to prepare the site and set up the pumping equipment. You may notice a slight increase in traffic and might be able to hear some of the work. There will be a sign posted at the entrance of the access road to identify the location.

We appreciate your patience while we perform work in your community. For additional information and questions or if you wish to report an issue related to our operation, please do not hesitate to contact us via the Oxy Colorado Response Line at 866.248.9577 or ColoradoStakeholder@oxy.com.

Additionally, to learn more about oil and gas and our efforts to safeguard communities, our employees, and the environment, please visit our website at OxyColoradoStakeholder.com.

When you contact us, please reference this activity by the following: **LAPKA**

Thank you for your attention,
