

April 2023

Dear Neighbor,

We are writing to notify you that Kerr McGee Oil & Gas Onshore, LP, a subsidiary of Oxy USA Inc., will soon be conducting work on an existing oil and natural gas well in your area. Please see the map on the reverse side for reference.

The work involves the installation of a temporary water storage tank or Modular Large Volume Tank (MLVT). The installation, which will take place during daylight hours, will begin in the next few weeks and will take approximately two to four weeks to complete. Our teams will use various types of construction vehicles to prepare the site and to install the tank and water pumping equipment. You may notice a slight increase in traffic and might be able to hear some of the work. There will be a sign posted at the entrance of the well access road to identify the location.

We appreciate your patience while we perform work in your community. If you have any questions or wish to report an issue related to our operation, please do not hesitate to contact us via the Oxy Colorado Response Line at 866.248.9577 or ColoradoStakeholder@oxy.com. In addition, to learn more about oil and gas or our efforts to safeguard communities, our employees, and the environment, please visit our website, OxyColoradoStakeholder.com.
